Description

2-Bedroom Apartment in Eco-Green Project, Paphos – Just Steps from Convenience Located in the charming area of Chloraka, this thoughtfully designed 2-bedroom apartment is part of a pioneering eco-green residential project, just 100 steps from a supermarket and a school. Blending urban convenience with a deep respect for nature, this development offers a new vision of sustainable living in the heart of Paphos. The project features an abundance of greenery, natural stone, and eco-conscious design, with elements such as a water mist cooling system to create a healthy, comfortable, and harmonious living environment. Carefully placed vegetation naturally regulates the building’s temperature—keeping it warm in winter and cool in summer—while maximizing natural light and outdoor views. Tested green design methods demonstrate up to 50% energy savings and 62% fewer greenhouse gas emissions compared to traditional buildings. Inhabitants of green homes have been shown to enjoy better sleep, improved cognitive function, and increased overall wellbeing. At the heart of the project is a shared lobby space on the ground floor—a green social hub where residents can relax, chat, and share their love of plants. Each apartment also features a private terrace enriched with greenery, perfect for relaxing with a drink and enjoying the fresh air and sea breeze. This outdoor area doubles as a personal retreat—a space to read, unwind, or connect with nature. A modern security system provides peace of mind, making this development a true sanctuary within the city. Ideal for those who value sustainability, health, and lifestyle.
